

ADDISON FLEET

YOUR FLEET. OUR PASSION

EVERYTHING YOUR FLEET NEEDS TO KEEP MOVING.

Addison Fleet has been providing highly customized fleet management and leasing solutions to businesses across Canada for more than 60 years. We offer a complete range of services to ensure your vehicles perform at their best, and your drivers have the tools they need to do their jobs safely and efficiently.

CUSTOMER-CENTRIC. RESULTS-ORIENTED.

We will work with you to develop, deliver and manage customized best-in-class fleet solutions. Our goal is to keep your drivers satisfied and productive, at a fair and reasonable cost.

Together we will analyze your fleet operations, establish measurable goals and leverage industry-best practices to increase efficiencies, reduce expenses and maximize productivity. We thrive on creativity, agility and flexibility to provide exemplary service and a personalized client experience.

UNIQUE FLEETS. UNIQUE SOLUTIONS.

We leverage our deep expertise and advanced technology to tailor solutions specifically to your needs. Our commitment is to help you attain optimal fleet performance by approaching your fleet as if it were our own.

Our experts will examine your fleet challenges and deliver the right combination of fleet optimization, driver productivity and cost and risk management programs. So you can save money, increase productivity, and unlock the full potential of your fleet.

FINANCING OPTIONS BUILT TO ORDER.

We offer a number of flexible lease solutions designed to meet your individual financial objectives and improve cash flow. With competitive rates, transparent pricing and simplified billing, we can satisfy all of your current and future fleet financing needs.

Our financial strength and expertise enable us to accomplish your specific goals and ensure capital is available for investment and expansion activities.

CANADIAN HERITAGE. INTERNATIONAL REACH.

Canadian-owned and managed, Addison Fleet offers clients throughout Canada and the United States a harmonized selection of vehicle products and services.

We can meet all your fleet needs in both countries and consolidate data across a comprehensive suite of programs. The result is complete cross-border coverage, with access to local expertise and a unified analysis of vehicle data to help you optimize fleet performance.

SAFER, MORE EFFICIENT FLEETS.

We'll help improve driver safety compliance through our online driver training program and convenient tools that score and rank driver behaviour.

Our Driver Abstract Program enables you to put your safety focus where it is needed most. By providing an accurate record of driving performance for everyone in your fleet, this system can identify potential problem drivers, lower the number and severity of accidents, and save you money.

ADVANCED DATA. INSTANT ACCESS.

With 24/7 access to fleet data, you will always know how your fleet is performing.

Our Client Portal, FleetPoint, provides comprehensive and flexible fleet management reporting. An at-a-glance dashboard provides over 40 reports including vehicle inventory, fleet expense trends, maintenance, fuel, violations, driver information, and much more. We can also deliver annual, semiannual and quarterly reviews to measure how your fleet is operating against key objectives.
