

## Canadian Accredited Security Contractor (CASC) program – Renewal Declaration

The Canadian Accredited Security Contractor ("CASC") program supports and promotes best practices, ethics, and professionalism in the electronic security industry and enables consumers to find reputable, professional electronic security contractors. CASC accreditation is open to all Canadian electronic security contractor companies that satisfy, on an ongoing basis, the eligibility criteria available online at: [www.canasa.org/CANASA/CASC/Pages/Eligibility\\_criteria.aspx](http://www.canasa.org/CANASA/CASC/Pages/Eligibility_criteria.aspx). In order to ensure continued compliance with the CASC eligibility criteria, accredited CASC members must submit completed renewal declarations and, where applicable, the associated fee on an annual basis. Failure to accurately complete and submit this renewal declaration may be considered an attempt to obtain accreditation by fraud or misrepresentation and may result in the denial of and/or delay in processing of accreditation renewal.
